- 12) No shadowing another skater, except for group numbers including duets and trios, or under a coach's direction.

- 15) Music and Right of Way Rules:
  - A) Any skater may have his or her music played during a club ice session. If there are several skaters that want to play their music, put your music request in the queue.
  - B) Music will be played in the order submitted with the following exceptions:
    - i) Coaches may "bump" a skater's music to the top of the order if that skater is in a lesson.
    - ii) Coaches may "bump" another skater only twice during a given lesson.
    - iii) There will be one skater request played between each coach requested "bump"
  - C). A piece of music may only be restarted due to technical difficulty.
  - D) After a skater's music is played, it will be placed at the end of the queue where it may be played again after all requested music has been played at least once and the rotation begins again – time permitting.
  - E) Skaters with two programs will have the second program played with the same priority as if requesting the first program a second time – played as time allows after all other submitted music has been played one time.
  - F) During busy time, typically prior to competitions and shows, the SAFSC will make an effort to have a music monitor for club ice sessions. However, in the absence of a session music monitor both skaters and coaches must be respectful of each other and support maintaining the above process to the best of their ability.
